Before working on crochet field, i tried more than one crafts like (drawing, sewing, embroidery). But crochet became the craft that i fall in love with. When my baby girl was born (my shop name belongs to her), I found a renewed interest in crochet. I especially loved creating hats, blankets and jackets for her. It was fun to crochet my own designs, and I thought others might enjoy them too.

i have more and more ideas to do on this craft now, wishing enjoy my designs and have a nice time doing your favorite craft
