

Spiderweb Halloween Wreath

Pattern reading notes • Version 1.0 • September 30, 2026

Web Round 5 join

Round 5 begins with chain 11, representing a treble plus a chain-7 space. Join to the fourth chain of that beginning chain-11. The printed reference to beginning chain-7 does not match the round start.

Different materials for different parts

The doubled thread web, yarn spider and ruffle trim use different hooks. Read the materials list for all three before beginning. Check the completed web against the purple center before securing its tails.

Display and care

The wreath uses fabric, a rigid center and a straw form. Keep it dry unless every component allows washing, and secure the dangling spider out of pets' reach.

PetsCrochet editorial reading notes. The complete supplied pattern follows. Proposed corrections are prototype-ready drafts: no physical crochet sample or wash test was completed for this package.
