Baby Dog in Pink

Two Baby Dog dolls wear pink and purple outfits with ruffled hems and paw embroidery.

Version 1.0 | October 3, 2026 | Prototype-ready reading draft. No physical crochet sample, wash test or child/pet-use test was completed. Proposed corrections are editorial interpretations, not confirmed errata.

Starting specifications

Yarn weight not specified; 2.5 mm hook or a hook suited to your yarn. Listed as about 20 cm around and 10 cm long; axes are unclear. Separate head, shaped muzzle and decorative borders. Consult the complete supply list and color plan in the pattern pages.

Body, head and translated wording

Body: 6/12/18/24/30/36; FLO round 8 at 36, increase to 42, hold through 15, narrow 36/30/24 and hold 24 to finish. Head grows by six to 48, holds rounds 9-16, then round 17: 12 sc, nine increases, six sc, nine increases, 12 sc = 66. Close 60/54/48/42/36/30/24. The original uses ring to mean rounds in repeated ranges. Pink body/arm colors and dark-pink trim are integral to the clothing look.

Clarifications for pieces and ruffles

Arms hold 12 but final flattening says four sc across both layers, leaving two paired positions unexplained. A proposed six-sc seam closes all 12; compare arm width before using it. Legs reach 16 and close across eight pairs. Nose-tip final row is mislabeled a second round 5; it is the next row, seven sc. Its foundation needs interpretation: ch 2 followed by two sc, not two base chains consumed. The white muzzle begins ch 5 with 10 stitches but no complete oval foundation is given. A proposed foundation ch 5, sc in second, two sc, three sc in last, two sc underside, two sc in final base = 10; sample before using. Collar/dress/cuff directions say sc into 4/5/3 ch without clearly defining those chain loops. A proposed trim repeats ch 4/5/3 then sc into the next reserved loop, giving one anchored loop per base position. This is untested; mark the correct reserved loop round and record changes. Proposed leg completion: after the cream three-round foot, change to the main dark color at round 4 and work sc around through round 17; close across eight pairs. This color boundary and missing round 17 are untested additions. For the pictured front flower, embroider five short loop petals with a contrasting center; no exact source flower schedule exists. Pin limbs, tail and ears before sewing.

Measure, finish and check

Gauge and dimensions

No verified PetsCrochet gauge is available. Where no gauge is stated, make a six-round sc circle ending at 36 stitches, measure its diameter without stretching and record yarn/hook. Check filled fabric for gaps; flat appliqués should lie flat without pulling. Measure stuffed height head-to-base, plus width/depth and widest circumference; record whether ears/halo are included. For patches, measure maximum width and height flat, without stretching. Source dimensions are estimates, not measurements of a new sample.

Resizing method

For a yarn/hook change, make matching test circles: new circle diameter divided by original circle diameter is an approximate scale ratio. Multiply known dimensions by this ratio as an estimate only. Keep the written stitch schedule until a physical prototype supports a changed schedule. Clothes and backings must fit the actual dog/motif; do not scale a wire frame, spring, eye size or garment fastening blindly. No yardage or fit is verified by this ratio.

Terms and supply checks

MR: magic ring; ch: chain; sc: US single crochet; inc: two sc in one base; dec/sc2tog: two sc joined into one; sl st/ss: slip stitch; hdc: half double crochet; dc: double crochet; tr: treble; dtr: double treble; FLO/BLO: front/back loop only; FO: fasten off. Ranges include both endpoints. Mark the first stitch, count base positions consumed and resulting stitches, and make pairs together. Yarn package size is not measured project use. Keep stitch marker, needle and scissors ready; use filling and components only where the chosen pattern calls for them.

Finish, care and intended use

Pin parts before sewing, test seated/standing balance without forcing it and inspect all seams and attachments. These are dog-themed display crafts for people, not pet chew toys or certified baby toys. Keep wire, spring parts, hard eyes, felt, hair strands and craft tools out of pets’ reach. Follow actual yarn/filling/component care labels; assembled washability is untested. Clean gently only when the materials allow it, dry fully and inspect again. If a round cannot consume its available stitches, pause and clarify or sample the proposed interpretation. Record changes so the paired part follows the same plan.
