

Full-Body Puppy Appliqué

A flat full-body puppy has a brown head, pale body, back patch and red bow.

Version 1.0 | October 3, 2026 | Prototype-ready reading draft. No physical crochet sample, wash test or child/pet-use test was completed. Proposed corrections are editorial interpretations, not confirmed errata.

Starting specifications

Small amounts of worsted-weight yarn; 2.5 mm starting hook. Listed at about 7½ inches wide × 6½ inches tall. Oval shaping, mixed-height stitches and layered assembly. Consult the complete supply list and color plan in the pattern pages.

Head and layered pieces

Head totals 16/23/33/39/51/61 agree with the listed stitch blocks. Cheek round 2 lists nine increases over 20, producing 29, not its printed 27. Count-consistent total is 29, but the intended shape is unverified. The short last cheek line is a partial row, not a full round. Typos chabge/shite mean change/white in the stated color sequence. Keep left/right ears and legs separately labeled; their schedules intentionally differ.

Body and spot need clarification

Body round 1 adds up to 32, not printed 36, and does not describe all underside chain positions consistently. Round 2 consumes 40 positions and produces 54, incompatible with either 32 or 36 and its printed 46. Do not silently replace these with a generic oval: the uneven shape is central to this dog. Spot row 7 says skip first, then four sc after a four-stitch row, which needs five available positions. This row needs clarification or a prototype revision. The original schedule remains unverified. For a count-consistent prototype alternative, make ch 16, sc in second ch, 13 sc, 3 sc in last ch, 13 sc along underside, 2 sc in starting base = 32. Join; ch 1 does not count. Round 2 (3 sc, inc) eight times = 40; round 3 (4 sc, inc) eight times = 48; round 4 (5 sc, inc) eight times = 56; round 5 sc 56; round 6 (6 sc, inc) eight times = 64; round 7 sc 64, FO. This new oval is an untested alternative, not guaranteed to match the original uneven silhouette. For spot row 7, omit the skip and work four sc across the four available stitches, then continue its narrowing rows. Check how the spot and legs fit this actual prototype before sewing. Pin all cheek layers, legs, tail, body spot and red bow to the photo before sewing.

Measure, finish and check

Gauge and dimensions

No verified PetsCrochet gauge is available. Where no gauge is stated, make a six-round sc circle ending at 36 stitches, measure its diameter without stretching and record yarn/hook. Check filled fabric for gaps; flat appliqués should lie flat without pulling. Measure stuffed height head-to-base, plus width/depth and widest circumference; record whether ears/halo are included. For patches, measure maximum width and height flat, without stretching. Source dimensions are estimates, not measurements of a new sample.

Resizing method

For a yarn/hook change, make matching test circles: new circle diameter divided by original circle diameter is an approximate scale ratio. Multiply known dimensions by this ratio as an estimate only. Keep the written stitch schedule until a physical prototype supports a changed schedule. Clothes and backings must fit the actual dog/motif; do not scale a wire frame, spring, eye size or garment fastening blindly. No yardage or fit is verified by this ratio.

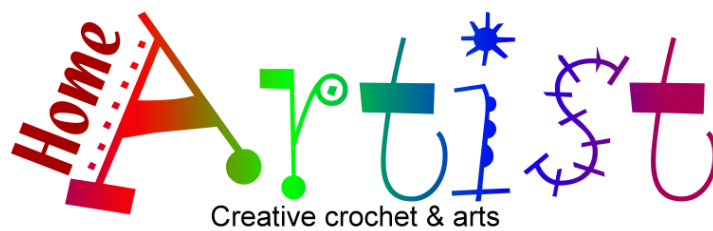

Terms and supply checks

MR: magic ring; ch: chain; sc: US single crochet; inc: two sc in one base; dec/sc2tog: two sc joined into one; sl st/ss: slip stitch; hdc: half double crochet; dc: double crochet; tr: treble; dtr: double treble; FLO/BLO: front/back loop only; FO: fasten off. Ranges include both endpoints. Mark the first stitch, count base positions consumed and resulting stitches, and make pairs together. Yarn package size is not measured project use. Keep stitch marker, needle and scissors ready; use filling and components only where the chosen pattern calls for them.

Finish, care and intended use

Pin parts before sewing, test seated/standing balance without forcing it and inspect all seams and attachments. These are dog-themed display crafts for people, not pet chew toys or certified baby toys. Keep wire, spring parts, hard eyes, felt, hair strands and craft tools out of pets' reach. Follow actual yarn/filling/component care labels; assembled washability is untested. Clean gently only when the materials allow it, dry fully and inspect again. If a round cannot consume its available stitches, pause and clarify or sample the proposed interpretation. Record changes so the paired part follows the same plan.
