

Fuzzy Round Cat

A brown fuzzy cat has a pale muzzle and little paws.

Version 1.0 | October 2, 2026 | Reading companion with every supplied pattern page. No physical crochet sample, wash test or child/pet-use test was completed. Proposed repairs are untested editorial interpretations, not designer-approved errata.

Starting specifications

Nako Paris and Alize Softy; listed hook size 2. No finished size stated. Crochet; textured yarn and assembly. See the original supply list for component colors and amounts.

Construction route

Fuzzy yarns listed: Nako Paris and Alize Softy; source hook numeral is 2. A 2 mm starting hook is a proposed unit reading, to be checked against the actual yarn. No gauge or finished size is given. Head/body begins six sc and increases by six to 72 through round 12. Feet and tail are joined at the stated rounds, arms around round 35, keeping the round total. Close through 66/60/54/48/42/36/30/24/18/12/6.

Unresolved translation

Tail round 1 is six, round 2 says 12 sc and round 3 says six increases to 12. A count-consistent proposed interpretation is six sc in round 2, then six increases to 12 in round 3. Muzzle wording includes unexplained tooth/diamond terms; do not treat them as established stitch abbreviations. Resolve those rows using the original photo or clarification before a final make. No corrected muzzle schedule or verified yarn amount is invented. A furry surface hides stitches, so count carefully and compare paired parts.

Measure, finish and check

Gauge and resizing

Where no gauge is supplied, make a six-round circle of 36 sc using the selected yarn/hook and record its diameter without stretching. Fabric should contain the intended filling without visible gaps. For a yarn/hook change, measure matching test circles: $\text{new diameter} / \text{original diameter} = \text{approximate scale factor}$. Multiply listed dimensions by that ratio only as an estimate; stuffed shapes and clothes need a physical fit check. Keep the stitch schedule unchanged until a prototype establishes a different size. No yarn requirement, finished dimension or garment fit is verified by this formula.

Terminology and making checks

US terms unless the supplied page explicitly says otherwise. MR: magic ring; ch: chain; sc: single crochet; inc: two sc in one stitch; dec: join two stitches as one; sl st: slip stitch; hdc: half double crochet; dc: double crochet; tr: treble; BLO/FLO: back/front loop only; FO: fasten off. A body bobble counts as one position. For a proposed five-dc bobble, work five unfinished dc in one base and close all loops together; confirm the intended size against the source. Mark round starts, check consumed and resulting positions, make paired parts together and pin before sewing. Do not work an unresolved count as if it had been verified.

Materials, filling and care

Use the item-specific yarn/hook list on the preceding page and complete original materials list below. Include stitch marker, tapestry needle, scissors and the source filling/attachment materials. Ball sizes and planning allowances are not measured consumption. Fill gradually without distorting seams. Inspect closures, sewn parts, embroidered ends and sitting balance. Follow every actual yarn, filling and accessory care label; assembled washability has not been tested. Spot-clean only when the materials allow it, dry fully and inspect afterward.

Intended use and troubleshooting

These are cat-themed amigurumi/display crafts for people, not pet chew toys or certified baby toys. Keep wire, felt, plastic parts, loose strands and unfinished tools away from pets. If the shape buckles or paired parts differ, recount and compare the same round before adding filling. If a row cannot consume the available stitches, pause and resolve that row; the reference photo does not prove a corrected schedule. Record changes on the editable text so later paired parts use the same interpretation.

FACE

I used Alize Softy. If you knit with thinner or thicker yarn, decrease or increase the stitches/rows accordingly.

1 6 ch-from the second loop - 4, 3 in 1, 3, inc (12)

2 inc, 3, 3 inc, 3, 2 inc (18)

3 18 sc

4 dec, 3, Tooth, 3, 2 dec (12)

5 diamonds, leave the thread for sewing.

Sew on the ears and face, and shape the face.
