

Gingy Gingerbread Cat

A brown-and-white Gingy cat has a red bow and crochet buttons.

Version 1.0 | October 2, 2026 | Reading companion with every supplied pattern page. No physical crochet sample, wash test or child/pet-use test was completed. Proposed repairs are untested editorial interpretations, not designer-approved errata.

Starting specifications

Chunky chenille; 6 mm hook. Listed at 25 cm, about 9.8 inches. Crochet; bobbles and bow details. See the original supply list for component colors and amounts.

Construction and counts

Brown-and-white head/body grows 10/20/30/40/50, holds 50 across colored bobble paws and closes 40/30/20/10. Ears and striped tail are made separately. Keep each bobble as one stitch. Bow starts with ch 18 and uses the remaining 17 chains for the mixed sc/hdc/dc/tr profile; the center starts ch 6 and works five sc before wrapping.

Finishing and size

Sew the red bow and crochet buttons after laying them out together on the front. Some demonstration photos use purple yarn; they demonstrate construction rather than an extra purple design. The nominal size 25 cm is about 9.84 inches; the printed 0.984-inch conversion is wrong and the axis is not specified. Main hook 6 mm. Plastic eyes remain a separate component, not a safety certification.

Measure, finish and check

Gauge and resizing

Where no gauge is supplied, make a six-round circle of 36 sc using the selected yarn/hook and record its diameter without stretching. Fabric should contain the intended filling without visible gaps. For a yarn/hook change, measure matching test circles: $\text{new diameter} / \text{original diameter} = \text{approximate scale factor}$. Multiply listed dimensions by that ratio only as an estimate; stuffed shapes and clothes need a physical fit check. Keep the stitch schedule unchanged until a prototype establishes a different size. No yarn requirement, finished dimension or garment fit is verified by this formula.

Terminology and making checks

US terms unless the supplied page explicitly says otherwise. MR: magic ring; ch: chain; sc: single crochet; inc: two sc in one stitch; dec: join two stitches as one; sl st: slip stitch; hdc: half double crochet; dc: double crochet; tr: treble; BLO/FLO: back/front loop only; FO: fasten off. A body bobble counts as one position. For a proposed five-dc bobble, work five unfinished dc in one base and close all loops together; confirm the intended size against the source. Mark round starts, check consumed and resulting positions, make paired parts together and pin before sewing. Do not work an unresolved count as if it had been verified.

Materials, filling and care

Use the item-specific yarn/hook list on the preceding page and complete original materials list below. Include stitch marker, tapestry needle, scissors and the source filling/attachment materials. Ball sizes and planning allowances are not measured consumption. Fill gradually without distorting seams. Inspect closures, sewn parts, embroidered ends and sitting balance. Follow every actual yarn, filling and accessory care label; assembled washability has not been tested. Spot-clean only when the materials allow it, dry fully and inspect afterward.

Intended use and troubleshooting

These are cat-themed amigurumi/display crafts for people, not pet chew toys or certified baby toys. Keep wire, felt, plastic parts, loose strands and unfinished tools away from pets. If the shape buckles or paired parts differ, recount and compare the same round before adding filling. If a row cannot consume the available stitches, pause and resolve that row; the reference photo does not prove a corrected schedule. Record changes on the editable text so later paired parts use the same interpretation.
