

Kitty Lily with Crochet Clothes

Kitty Lily wears a pink-and-brown dress, shoes and hat.

Version 1.0 | October 2, 2026 | Reading companion with every supplied pattern page. No physical crochet sample, wash test or child/pet-use test was completed. Proposed repairs are untested editorial interpretations, not designer-approved errata.

Starting specifications

Plush yarn; 4 mm hook; cotton clothing yarn with 2.25 mm hook. About 26 cm. Crochet; previous experience required. See the original supply list for component colors and amounts.

Doll and clothing materials

Listed doll height is about 26 cm using plush polyester at 120 m/100 g with a 4 mm hook. Source consumption estimates are 80 g gray and 25 g white, not independently weighed. Clothes use cotton and a 2.25 mm hook: one blue ball and about one third of an orange ball as stated allowances. The pink/brown photographed outfit is a color alternative to the written blue/orange plan.

Counts and construction

Follow the detailed head shaping: 12/20/20/20/17/24/36/44/48/54, closing 48/42/36/30/24/18/12/6. Body grows from 6 to 42 and closes 36/30/24/18/12/6. Make and attach limbs, ears, muzzle and tail following the assembly photos. Clothes, shoes and hat have separate detailed schedules; original diagrams and all 21 pages follow. Check dress armhole placement before the skirt increases, and fit shoes on the actual stuffed feet.

Attachment checks

Some flattened appendage seams close fewer pairs than half the opening; check whether edge positions are intentionally left for shaping rather than silently adding a stitch. Secure every garment fastening and decoration. Clothes fitting this photographed doll are not evidence of baby-toy testing. Compare outfit fit before finalizing ties or buttons.

Measure, finish and check

Gauge and resizing

Where no gauge is supplied, make a six-round circle of 36 sc using the selected yarn/hook and record its diameter without stretching. Fabric should contain the intended filling without visible gaps. For a yarn/hook change, measure matching test circles: $\text{new diameter} / \text{original diameter} = \text{approximate scale factor}$. Multiply listed dimensions by that ratio only as an estimate; stuffed shapes and clothes need a physical fit check. Keep the stitch schedule unchanged until a prototype establishes a different size. No yarn requirement, finished dimension or garment fit is verified by this formula.

Terminology and making checks

US terms unless the supplied page explicitly says otherwise. MR: magic ring; ch: chain; sc: single crochet; inc: two sc in one stitch; dec: join two stitches as one; sl st: slip stitch; hdc: half double crochet; dc: double crochet; tr: treble; BLO/FLO: back/front loop only; FO: fasten off. A body bobble counts as one position. For a proposed five-dc bobble, work five unfinished dc in one base and close all loops together; confirm the intended size against the source. Mark round starts, check consumed and resulting positions, make paired parts together and pin before sewing. Do not work an unresolved count as if it had been verified.

Materials, filling and care

Use the item-specific yarn/hook list on the preceding page and complete original materials list below. Include stitch marker, tapestry needle, scissors and the source filling/attachment materials. Ball sizes and planning allowances are not measured consumption. Fill gradually without distorting seams. Inspect closures, sewn parts, embroidered ends and sitting balance. Follow every actual yarn, filling and accessory care label; assembled washability has not been tested. Spot-clean only when the materials allow it, dry fully and inspect afterward.

Intended use and troubleshooting

These are cat-themed amigurumi/display crafts for people, not pet chew toys or certified baby toys. Keep wire, felt, plastic parts, loose strands and unfinished tools away from pets. If the shape buckles or paired parts differ, recount and compare the same round before adding filling. If a row cannot consume the available stitches, pause and resolve that row; the reference photo does not prove a corrected schedule. Record changes on the editable text so later paired parts use the same interpretation.

- 3 pcs 8-10 mm buttons;
- 4 mm crochet hook (for the toy) and 2.25 mm (for the clothes);
- Stuffing material, fiberfill;
- Tapestry needle;
- 12 mm safety eyes or sewing eye beads;
- eyelashes;
- glue;

- stitch markers;
- pins;
- good mood☺

Yarn consumption:

1. for the toy:

- color B - grey- 80gr;
- color A - white - 25gr.

2. For clothes:

- color A – blue – 1 skein;
- color B – orange – 1/3 skein.

The finished product using the materials described in this pattern is ~ 26cm (10,2").

Please, note that this pattern does not include the lessons of crocheting. You must have previous knowledge of crochet techniques.

Note! When using the different yarn and number of hook, the size of the toy may vary, as well.

Terms and abbreviations (US):

- MR – magic ring;
- SC –single crochet;
- CH - chain;
- T-ch – turning chain
- Inc – increase (make two sc into one stitch);
- Dec - decrease (invisible);
- BLO – back loops only;
- FLO – front loops only;
- Sl st – slip stitch;
- DC – double crochet;
- HDC – half double crochet;
- «into the 2nd st from hook» - skip the first stitch and start working into the second stitch;
- Shift stitch – work one sc in the end of the round and move marker for one stitch. I.e. now 2nd st of the round becomes 1st;
- BPDC – back post double crochet;
- FPDC – front post double crochet;
- St – stitch;
- Rnd/row - round.

Tip 1. Make sure you crochet tight enough. Otherwise, the stuffing will show through the holes. Use a smaller hook than recommended for the yarn you choose.

Tip 2. Use a stitch marker to keep track of where the beginning of each round starts. It may be a marker or contrasting yarn. Move the marker up to the first stitch of the next round after finishing the previous one.

The toy is crocheted in continuous spirals without turning chains. Do not join or turn until otherwise is instructed. We make it for the garment to be smooth and even.

While working, you will need to keep the work symmetrical. As work tends to twist to the right you need to adjust the position of the marker periodically (beginning of round) if the marker moves right. Usually, you have to do shift stitches every 4-5 rounds. This is shift stitch – it is not included in the description of rounds.

Enjoy crocheting!
