

Milo with a Blue Scarf

Edition and sample status

Version 1.0 | October 12, 2026. Prototype-ready reading draft; this edition, its proposed corrections and new components have not been physically crocheted, washed or checked for recipient use. Complete supplied instruction, photograph and chart pages are included after the reading notes. The notes expand or clarify the reference; they do not establish tested errata.

Reference size and measurement

No finished dimensions or numerical gauge supplied. For a figure, measure height from crown to lowest foot in its display pose, then widest body width; for a head measure widest head width. For the pouch, measure laid-flat bag width and length separately from overall figure length. Measure only a completed relaxed sample, not a photo. These targets are reference values, not independent results.

Materials and starting hook

Category 1 fingering cotton: ivory 35 g, brown 30 g, pumpkin 20 g, sky blue 10 g; 2.2 mm hook, stuffing, 12 mm eyes, scissors, needle and marker. Stated allowances are not measured usage for the new completion. Use a yarn needle suitable for the chosen yarn, a movable marker, scissors and measuring tape. Listed balls, skeins and gram amounts are reference allowances rather than measured consumption for this edition. Buy an additional allowance only after planning your own sample; no exact new total is promised.

Gauge and resizing

No numerical tested gauge is established for this reading edition. Where the reference has no stitch gauge, make a single crochet swatch larger than 10 cm square, let it rest, and record stitches and rounds in the middle 10 cm. Make a small stuffed component to check gaps. If stuffing shows through, trial a smaller hook and repeat. For a display figure rescale, $\text{ratio} = \text{desired finished height} / \text{measured original sample height}$. Trial yarn and hook together to produce approximately that scale while preserving the complete stitch schedule, then make the whole sample and remeasure. Check muzzle, ears, neck and base separately. Hardware and yardage do not scale automatically. This is a sampling method, not a verified second size. For the jar cover use the actual-container method in the written chart reading.

Terms and how to read the pages

US terms in the added notes: ch=chain; sc=single crochet; hdc=half double crochet; dc=double crochet; tr=treble; sl st=slip stitch; MR=magic ring; inc=2sc in one stitch; dec=sc2tog; BLO/FLO=back/front loop only. A decrease consumes 2 base stitches and produces 1. A three-stitch increase consumes 1 and produces 3. Move marker each spiral round; do not count an offset stitch as a new increase. Turning chains are not counted in added flat-row instructions. Follow each original pattern's own stated terminology and colour key. English, scanned and incomplete reference.

Construction route

The supplied pages cover the head, eye patch and legs. This download also includes proposed body, ear, arm, tail and scarf instructions to complete the pictured shape. Those additions are an untested draft, so make a sample before promising the same proportions. Brown ears and an eye patch frame Milo's cream face. Orange shorts and a blue scarf give this little dog a bright finish. It has the same small-character appeal as the other puppies, with a simpler colour palette than Milky's spots.

Count and completeness review

Reference stops before the second part. Head, patch and leg schedules manually transcribed. New body, ears, arms, tail, embroidered nose/mouth and scarf are clearly marked PetsCrochet completion draft. No claim that these match the absent designer part 2.

Milo - transcribed reference and PetsCrochet completion draft (US terms)

Work spirals with marker; all turning chains in new flat rows are not counted. Inc=2sc in one stitch, dec=sc2tog, hdcinc=2hdc in one stitch. Original reference portions below are the eye patch, head and legs only. Body, arms, ears, tail, scarf and embroidery are newly proposed, untested sample directions, not the absent second part of the reference.

EYE PATCH brown: R1 6sc in MR (6); reference leaves centre loose for an eye fitting. R2 hdcinc in each first3, dcinc in each last3 (12). R3 hdcinc, (sc,inc)x5,sc (18). Fasten off with sewing tail. If using embroidered eyes, close the centre and embroider eye over patch instead.

HEAD ivory: R1 6sc in MR (6); R2 incx6 (12); R3 (sc,inc)x6 (18); R4 (2sc,inc)x6 (24); R5 24sc; R6 (3sc,inc)x6 (30); R7 30sc; R8 (4sc,inc)x6 (36); R9 (5sc,inc)x6 (42); R10 (6sc,inc)x6 (48); R11 48sc; R12 (7sc,inc)x6 (54); R13-19 54sc. Reference eyes between R14-15 with 8 stitches between; mark and remove temporary fittings before continuing. R20 (7sc,dec)x6 (48); R21 48sc; R22 (6sc,dec)x6 (42); R23 42sc; R24 (5sc,dec)x6 (36); R25 (4sc,dec)x6 (30). Sew eye patch at one marked eye position, then install washers inside if using fittings. R26 (3sc,dec)x6 (24); R27 (2sc,dec)x6 (18). Stuff, fasten off with long sewing tail. Keep 18-stitch neck open.

LEGS make2: brown R1 6sc in MR (6); R2 incx6 (12); R3 (sc,inc)x6 (18). Change ivory. R4 BLO18sc; R5-8 18sc. Change pumpkin. R9 BLO18sc; R10 18sc. Fasten first leg; leave second attached and work 2 extra sc to offset beginning, not increasing count. Reference stops here.

PROPOSED BODY COMPLETION: with pumpkin on second leg, ch3, join to first leg with sc (counts as first of its 18), 17sc round first leg, 3sc into chain, 18sc around second, 3sc into underside chain (42). Mark first stitch. R2-4 42sc. R5 (5sc,dec)x6 (36). Change ivory. R6 BLO36sc. R7-9 36sc. R10 (4sc,dec)x6 (30). R11-12 30sc. R13 (3sc,dec)x6 (24). R14 24sc. R15 (2sc,dec)x6 (18). Stuff legs and body moderately, keeping feet flat. Fasten off leaving tail. Align 18-stitch head opening to 18 body stitches; sew one-to-one all round with head upright. Add stuffing to neck before final seam closure. Shorts are the pumpkin upper legs/lower torso; free front loops remain at colour transition.

PROPOSED ARMS make2, ivory: R1 6sc in MR (6); R2 (sc,inc)x3 (9); R3-8 9sc; R9 (sc,dec)x3 (6); lightly stuff only hand end, flatten top and sc3 through both layers; leave sewing tail. Pin either side below neck so both arms hang alike, then sew closed top to body. Do not crochet through unattached pins.

PROPOSED EARS make2 brown, unstuffed: R1 6sc in MR (6); R2 incx6 (12); R3 (sc,inc)x6 (18); R4-6 18sc; R7 (sc,dec)x6 (12); R8-10 12sc; R11 decx6 (6); flatten top and sc3 through both layers. Leave tail. Sew symmetrically at sides of head around R8-10. Check length on sample; these ears do not reproduce an absent verified schedule.

PROPOSED TAIL ivory: R1 4sc in MR (4); R2-5 4sc. No stuffing. Flatten, sew 2 stitches across top and stitch to rear of body at pumpkin/ivory transition. Secure tail.

PROPOSED BLUE TRIANGULAR SCARF, flat: ch2. Row1 sc in second chain (1). Row2 ch1 turn, 3sc in same stitch (3). Row3 ch1 turn, inc, sc, inc (5). Row4 ch1 turn, inc, 3sc, inc (7). Row5 ch1 turn, inc, 5sc, inc (9). Row6 ch1 turn, inc, 7sc, inc (11). Row7 ch1 turn, inc, 9sc, inc (13). Fasten off. For doll ties, join at each upper corner, ch12 and fasten off; secure ends. Pin triangle point at front and tie behind doll neck, checking actual fit; alternatively sew corners down and omit ties. This is a doll decoration, never a real-pet collar.

PROPOSED FACE: with brown or black embroidery thread make a small triangular nose centred between the marked eyes and slightly below them; add short vertical stitch and two short mouth curves. Secure threads inside head. Omit loose or glued features. Position ears, scarf and arms against supplied front photo, sew and remove all pins. No tested height is supplied. Measure sample head-to-foot, record yarn usage, and adjust only after comparing sample proportions.

Assembly and final checks

Follow the retained photographs and numbered assembly directions. Place paired ears and paws with temporary markers, compare front, side and rear, then sew securely around open edges or through flattened tops as directed. Do not force unmatched stitch counts into a seam: check the previous shaping round first. Add stuffing in small pieces while keeping any intended flat base flat. After sewing, remove every pin, secure tails and inspect every attached piece. Test any proposed seam or count repair on a sample before final gifting.

Care and intended use

These are dog-themed display and gift crafts, not chew toys or walking equipment for real pets. Keep stuffing, hard fittings, keys, joints, loose fibres and doll accessories away from pets. Follow the actual yarn and component labels for cleaning; trial care on a spare sample before washing the figure. Avoid heat on untested plastic fittings or glued components. No washability, attachment-strength or child-toy compliance test has been completed for this edition.

Sample record and troubleshooting

Record yarn brand/fibre and colour, hook, gauge, finished height/width, yarn used, proposed changes and care result. If fabric gaps appear, try a smaller hook and recheck size. If head droops, check stuffing distribution and seam positions; do not add concealed weights or wire absent from the design. For a distorted face, check marker positions and muzzle alignment before undoing the entire head. For the jar, remove the sleeve to clean the container; do not treat a crochet cover as protection against glass breakage. Read coloured stitch lines on the original PDF pages because plain-text extraction can lose colour segmentation.

Complete pattern pages

The full supplied pages begin next, including foundations, rows/rounds, stitch counts, colour cues, assembly photographs and charts available in the reference. Original page numbering restarts there. Use the count review above where a proposed alternative is given. For Milo, use the separate completion draft to supply the absent pieces; for the keychain, choose the marked alternative muzzle when sampling.
