

Tiny Plush Pug

Two tiny cream and brown crochet pugs rest together in a hand.

Version 1.0 | October 3, 2026 | Prototype-ready reading draft. No physical crochet sample, wash test or child/pet-use test was completed. Proposed corrections are editorial interpretations, not confirmed errata.

Starting specifications

Alize Velluto in colors 60 and 62; listed hook number 4. Listed at about 9–10 cm. Small rounds, bobbles and attached ears. Consult the complete supply list and color plan in the pattern pages.

One-piece pug

US crochet interpretation despite the translated word knitted. Start with 9 sc in a magic ring, increase to 18 and hold 18 through the face and four foot bobbles. In round 4, 11 sc, one dark two-dc bobble, sc, one dark two-dc bobble, four pale sc uses 18 positions. Foot rounds 6 and 8 use 9 sc, bobble, 5 sc, bobble, 2 sc = 18. Round 9 is nine decreases to 9. Stuff and draw the last nine front loops closed.

Ears, eyes and hook

Attach black ear yarn between rounds 1-2 and work ch 2, hdc in the same spot, sl st one row lower; repeat opposite. Secure ends inside before closing the body. A two-dc bobble means two unfinished dc in one base, closed together; count it once. Install eyes/nose according to the actual component instructions while access remains. Hook number 4 has no explicit unit in the source; a 4 mm start is a proposal, not a confirmed unit. Listed yarn produces an approximate 9-10 cm pug.

Measure, finish and check

Gauge and dimensions

No verified PetsCrochet gauge is available. Where no gauge is stated, make a six-round sc circle ending at 36 stitches, measure its diameter without stretching and record yarn/hook. Check filled fabric for gaps; flat appliqués should lie flat without pulling. Measure stuffed height head-to-base, plus width/depth and widest circumference; record whether ears/halo are included. For patches, measure maximum width and height flat, without stretching. Source dimensions are estimates, not measurements of a new sample.

Resizing method

For a yarn/hook change, make matching test circles: new circle diameter divided by original circle diameter is an approximate scale ratio. Multiply known dimensions by this ratio as an estimate only. Keep the written stitch schedule until a physical prototype supports a changed schedule. Clothes and backings must fit the actual dog/motif; do not scale a wire frame, spring, eye size or garment fastening blindly. No yardage or fit is verified by this ratio.

Terms and supply checks

MR: magic ring; ch: chain; sc: US single crochet; inc: two sc in one base; dec/sc2tog: two sc joined into one; sl st/ss: slip stitch; hdc: half double crochet; dc: double crochet; tr: treble; dtr: double treble; FLO/BLO: front/back loop only; FO: fasten off. Ranges include both endpoints. Mark the first stitch, count base positions consumed and resulting stitches, and make pairs together. Yarn package size is not measured project use. Keep stitch marker, needle and scissors ready; use filling and components only where the chosen pattern calls for them.

Finish, care and intended use

Pin parts before sewing, test seated/standing balance without forcing it and inspect all seams and attachments. These are dog-themed display crafts for people, not pet chew toys or certified baby toys. Keep wire, spring parts, hard eyes, felt, hair strands and craft tools out of pets' reach. Follow actual yarn/filling/component care labels; assembled washability is untested. Clean gently only when the materials allow it, dry fully and inspect again. If a round cannot consume its available stitches, pause and clarify or sample the proposed interpretation. Record changes so the paired part follows the same plan.
