

Wolf with a Crochet Hat

A standing gray crochet wolf wears a colorful hat with black yarn strands.

Version 1.0 | October 3, 2026 | Prototype-ready reading draft. No physical crochet sample, wash test or child/pet-use test was completed. Proposed corrections are editorial interpretations, not confirmed errata.

Starting specifications

Alize SuperLana Klasik wool blend; 2 mm hook; internal wire frame. No finished size supplied. Detailed shaping, long limbs and a fitted hat. Consult the complete supply list and color plan in the pattern pages.

Wolf is a display bonus

Follow the long shaped muzzle/head, tapered limbs, body, ears, eyebrows, tail and hat in the ten original pages. Listed yarn: wool blend 280 m/100 g, charcoal and melange gray; this describes the yarn unit, not measured use. The frame uses 30 cm for lower limbs/body extension and 20-22 cm for tail/arms. Fully wrap and contain ends, checking after filling and handling. No finished size is stated. Do not treat this wire figure as a pet chew toy or tested child toy.

Translation and count questions

ub means decrease in head round 44 only where its six-stitch result agrees. ss means slip stitch; front/back wall refer to loops. Head rounds 28-29 use a four-chain opening and skips across a round boundary; sample this opening before assuming how the 66 total is maintained. Body attachment text inconsistently calls leg/arm/tail: use assembly photos to distinguish parts and check the symmetrical lower-leg joins before committing. Hat rounds 3, 6, 7 and 9 omit or mistranslate increase wording. Proposed count-consistent hat: dc rounds 16/24/32/40/48/56/64, adding eight stitches per increase round; the extra final dc versus counted turning-chain convention remains unclear. A complete proposed hat convention is ch 2 not counted, join to first dc and no extra final dc: round 2 sixteen dc; round 3 (dc, dc-inc) eight times = 24; rounds 4-7 use (2/3/4/5 dc, dc-inc) eight times for 32/40/48/56. Round 8: 13 dc, ch 11, skip 11, 8 dc, ch 11, skip 11, 13 dc = 56. Round 9 (6 dc, dc-inc) eight times = 64, including the chains; round 10 dc 64; round 11 black sc 64. For a simpler head prototype, work sc 66 at head rounds 28-34 with no opening, inserting the wrapped frame between stitches at assembly. For body attachment, interpret round 11 as attaching each lower leg across five positions; rounds 18-19 attach two flattened tail positions at each side of the round boundary. Round 51 attaches the arms across four positions each. These are untested alternatives, not verified source interpretations. Fit ear openings on the actual head. Dreadlock-style chains are decorative yarn strands, not a tested attachment.

Measure, finish and check

Gauge and dimensions

No verified PetsCrochet gauge is available. Where no gauge is stated, make a six-round sc circle ending at 36 stitches, measure its diameter without stretching and record yarn/hook. Check filled fabric for gaps; flat appliqués should lie flat without pulling. Measure stuffed height head-to-base, plus width/depth and widest circumference; record whether ears/halo are included. For patches, measure maximum width and height flat, without stretching. Source dimensions are estimates, not measurements of a new sample.

Resizing method

For a yarn/hook change, make matching test circles: new circle diameter divided by original circle diameter is an approximate scale ratio. Multiply known dimensions by this ratio as an estimate only. Keep the written stitch schedule until a physical prototype supports a changed schedule. Clothes and backings must fit the actual dog/motif; do not scale a wire frame, spring, eye size or garment fastening blindly. No yardage or fit is verified by this ratio.

Terms and supply checks

MR: magic ring; ch: chain; sc: US single crochet; inc: two sc in one base; dec/sc2tog: two sc joined into one; sl st/ss: slip stitch; hdc: half double crochet; dc: double crochet; tr: treble; dtr: double treble; FLO/BLO: front/back loop only; FO: fasten off. Ranges include both endpoints. Mark the first stitch, count base positions consumed and resulting stitches, and make pairs together. Yarn package size is not measured project use. Keep stitch marker, needle and scissors ready; use filling and components only where the chosen pattern calls for them.

Finish, care and intended use

Pin parts before sewing, test seated/standing balance without forcing it and inspect all seams and attachments. These are dog-themed display crafts for people, not pet chew toys or certified baby toys. Keep wire, spring parts, hard eyes, felt, hair strands and craft tools out of pets' reach. Follow actual yarn/filling/component care labels; assembled washability is untested. Clean gently only when the materials allow it, dry fully and inspect again. If a round cannot consume its available stitches, pause and clarify or sample the proposed interpretation. Record changes so the paired part follows the same plan.

Complete pattern pages follow.

Materials:

Wool blend yarn Alize SuperLana Klasik (280m\100g)

Charcoal Gray (No. 87) and Melange Gray (No. 21).

You can choose any yarn that is convenient for you, the main thing is that it matches each other in size.

Yarn of any color for the hat and black for the dreadlock and nose.

Hook No. 2 (or a hook that matches your yarn).

Thin black yarn of the "Iris" type for decorating the paws.

Scissors.

Needle.

Beads for eyes or eyes on a secure 8 mm mount.

Wire for frame:

30 cm for the lower legs and extension of the body.

20-22 cm for the tail and upper paws.

Plaster for wrapping wire ends.

Rasta hat.

We knit in the round, changing colors in random order.

1. 8 sc in ring (8)

Next we move on to knitting the dc.

2. 2 ch, 8 inc dc, 1 ss (16)
3. 2 ch, (1 dc, 1 dc) * 8, 1 dc (24)
4. 2 ch, (2 dc, 1 inc dc) * 8, 1 dc (32)
5. 2 ch, (3 dc, 1 inc dc) * 8, 1 dc (40)
6. 2 ch, (4 dc, 1 dc) * 8, 1 dc (48)
7. 2 ch, (5 dc, 1 dc) * 8, 1 dc (56)

Next we make cutouts for the ears.

8. 13 dc, 11 you (skip 11 dc of the previous row), 8 dc, 11 you (skip 11 dc from the previous row), 13 dc. (56)
9. 2 vi, (6 dc, 1 dc) * 8, 1 dc (64)
10. 64 dc

We knit the last row with black yarn and sc.

11. 64 sc

We finish knitting, fix the thread and hide it.

Next we tie the "dreads".

To do this, we collect a chain of 30-40 ch, make 1 sc beyond the edge of the hat, and again we dial 30-40 ch.

Adjust the length of the dredd by the number of chs.

And so we tie the dreadlocks in a semicircle to the hat.

Design and assembly of the toy:

1. Make a tightening in front of the eyes with the left thread. For this insert the needle into the last decrease on the head. We draw under the eye, then back to the final decrease. Retreat 2-3 loops to the left or to the right and bring the needle back.

Next, we again insert the needle into the same place, bring it out under the second eye. We tighten the second eye in the same way.

2. Sew the eyebrows over the eyes. You can choose a convenient one for you have an option.
3. Sew on the ears approximately 32-34 rows. Distance There are 12 loops between the ears.

4. Sew the body to the head with the remaining thread, first inserting the wire from the body into the head.
5. On the legs, we embroider the toes with thin black thread
6. Embroider the whites of the eyes.
7. We put on a hat.
